Professional Profile

I have a passion for problem-solving and draw immense satisfaction from creating. I'm transitioning from a technically demanding job in VFX into web development.

Technical Skills

- Javascript
- React
- CSS
- HTML
- Version control
- Webpack

Projects

My Movie List

[Live Link](#) | [GitHub](#) | *React, Javascript, HTML, Material UI*

- An application that allows users to add movies to a personal list using The Movie Database API.

Battleship

[Live Link](#) | [GitHub](#) | *Javascript, HTML, SASS*

- This project is a recreation of the famous board game. In this project, I practised Test Driven Development using Jest and Object-Oriented Programming.

Weather City App

[Live Link](#) | [GitHub](#) | *React, Javascript, HTML, CSS*

- An application that allows users to fetch real-time weather data using React and the Open Weather API.
